

ABOUT OUR CHAPTER

The MNYADE is a chapter of the National American Association of Diabetes Educators (AADE) since 1985. Members of the MNYADE include registered nurses, dietitians, social workers, exercise physiologists, pharmacists, physicians, physician's assistants, psychologists and podiatrists.

Our chapter is committed to promoting professional growth and development. We are recognized as experts in diabetes education. We serve as a resource for organizations and individuals interested in promoting health and prevention for people living with diabetes and those who are at risk.

Our chapter features wonderful educational opportunities providing continuing education credits recognized by AADE throughout the year.

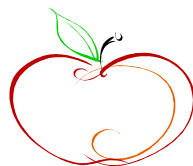

Our chapter offers networking opportunities where members share wonderful stories of successful programs, patients and experiences. These special times also help us reconnect to those fellow members that we don't usually get to see.

New Members Welcome

As a member you will receive:

- ❖ Our Chapter Newsletter free to all its members. This quarterly Newsletter highlights our members' achievements, provides educational information and keeps you up to date with the chapter calendar of upcoming events.
- ❖ Educational opportunities, such as meetings on hot diabetes related topics.
- ❖ Participation in special local and national projects, such as annual ADA Expo and national AADE conferences.
- ❖ Promotion of professional growth and development, CEU's offered at many chapter programs.
- ❖ Networking opportunities with local diabetes educators
